No additional phone calls will be necessary if all information (including phone and fax #s) on this form is correct. **If information provided is not complete, correct, or legible, authorization can be delayed.**

Drug Requested: Zevtera® (ceftobiprole) **IV (J0681) (Medical)**

MEMBER & PRESCRIBER INFORMATION: Authorization may be delayed if incomplete.

Member Name: _____

Member Sentara #: _____ **Date of Birth:** _____

Prescriber Name: _____

Prescriber Signature: _____ **Date:** _____

Office Contact Name: _____

Phone Number: _____ **Fax Number:** _____

NPI #: _____

DRUG INFORMATION: Authorization may be delayed if incomplete.

Drug Form/Strength: _____

Dosing Schedule: _____ **Length of Therapy**: _____

Diagnosis: _____ **ICD Code, if applicable:** _____

Weight (if applicable): _____ **Date weight obtained:** _____

- ❑ Standard Review. In checking this box, the timeframe does not jeopardize the life or health of the member or the member's ability to regain maximum function and would not subject the member to severe pain.

CLINICAL CRITERIA: Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

(Continued on next page)

Length of Authorization: Date of Service (7 days)

❑ **Diagnosis: Acute Bacterial Skin and Skin Structure Infections (ABSSSI)**

❑ **New Start**

- ❑ Member is 18 years of age or older
- ❑ Prescribed by an infectious disease specialist
- ❑ Member has a diagnosis of acute bacterial skin and skin structure infection (ABSSSI)
- ❑ Provider must submit date that requested medication was started inpatient: _____
- ❑ Provider has submitted lab cultures from current hospital admission or office visit collected within the last 7 days
- ❑ Lab cultures must show that bacteria is sensitive to Zevtera
- ❑ Member must meet **ONE** of the following:
  - ❑ Provider must submit chart notes documenting trial and failure of **ALL** the following IV antibiotics: daptomycin, dicloxacillin, cefazolin, cephalexin, clindamycin, nafcillin, oxacillin, sulfamethoxazole-trimethoprim, vancomycin, ceftaroline and ertapenem
  - ❑ Cultures (retrieved from most recent office visit or current inpatient admission collected within the last 7 days) shows resistance to **ALL** the following IV antibiotics: daptomycin, dicloxacillin, cefazolin, cephalexin, clindamycin, nafcillin, oxacillin, sulfamethoxazole-trimethoprim, vancomycin, ceftaroline and ertapenem

Length of Authorization: Date of Service (7 days)

❑ **Diagnosis: Community-acquired bacterial pneumonia (CABP)**

❑ **New Start**

- ❑ Member is 3 months of age or older
- ❑ Prescribed by an infectious disease specialist
- ❑ Member has a diagnosis of community-acquired bacterial pneumonia (CABP)
- ❑ Provider must submit date that requested medication was started inpatient: _____
- ❑ Provider has submitted lab cultures from current hospital admission or office visit collected within the last 7 days
- ❑ Lab cultures must show that bacteria is sensitive to Zevtera

(Continued on next page)

- ❑ Member must meet **ONE** of the following:
  - ❑ Provider must submit chart notes documenting trial and failure of **ALL** the following IV antibiotics: ampicillin-sulbactam, azithromycin, ceftriaxone, cefotaxime, doxycycline, levofloxacin, linezolid vancomycin, ertapenem, Baxdela® (delafloxacin) and ceftaroline
  - ❑ Cultures (retrieved from most recent office visit or current inpatient admission collected within the last 7 days) shows resistance to **ALL** the following IV antibiotics: ampicillin-sulbactam, azithromycin, ceftriaxone, cefotaxime, doxycycline, levofloxacin, linezolid, vancomycin, ertapenem, Baxdela® (delafloxacin) and ceftaroline

Length of Authorization: Date of Service (42 days)

❑ Diagnosis: *Staphylococcus aureus* bloodstream infections (SAB) (bacteremia) including those with right-sided ineffective endocarditis

❑ New Start

- ❑ Member is 18 years of age or older
- ❑ Prescribed by an infectious disease specialist
- ❑ Member has a diagnosis of *Staphylococcus aureus* bloodstream infections (SAB) (bacteremia)
- ❑ Provider must submit date that requested medication was started inpatient: _____
- ❑ Provider has submitted lab cultures from current hospital admission or office visit collected within the last 7 days
- ❑ Lab cultures must show that bacteria is sensitive to Zevtera
- ❑ Member must meet **ONE** of the following:
  - ❑ Provider must submit chart notes documenting trial and failure of **ALL** the following IV antibiotics: azithromycin, ceftriaxone, levofloxacin, doxycycline, daptomycin, cefazolin, nafcillin, oxacillin, vancomycin
  - ❑ Cultures (retrieved from most recent office visit or current inpatient admission collected within the last 7 days) shows resistance to **ALL** the following IV antibiotics: azithromycin, ceftriaxone, levofloxacin, doxycycline, daptomycin, cefazolin, nafcillin, oxacillin, vancomycin

Length of Authorization: Date of Service

❑ Diagnosis: All indications for use

❑ Continuation of therapy following inpatient administration

- ❑ Member has **ONE** of the following diagnoses:
  - ❑ Acute Bacterial Skin and Skin Structure Infections (ABSSSI)
  - ❑ Community-acquired bacterial pneumonia (CABP)
  - ❑ *Staphylococcus aureus* bloodstream infections (SAB) (bacteremia)

(Continued on next page)

- ❑ Must be prescribed by an infectious disease specialist
- ❑ Member is currently on Zevtera for more than 72 hours inpatient **(progress notes must be submitted)**
- ❑ Provider has submitted lab culture sensitivity results retrieved during inpatient admission which shows resistance to **ALL** preferred antibiotics except for Zevtera (sensitive)

Medication being provided by: Please check applicable box below.

- ❑ **Location/site of drug administration:** _____

  NPI or DEA # of administering location: _____

  OR

- ❑ **Specialty Pharmacy**

For urgent reviews: Practitioner should call Sentara Health Pre-Authorization Department if they believe a standard review would subject the member to adverse health consequences. Sentara Health's definition of urgent is a lack of treatment that could seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Use of samples to initiate therapy does not meet step edit/ preauthorization criteria.

Previous therapies will be verified through pharmacy paid claims or submitted chart notes.*
