

**VCU Health System PPO**  
**Plan Effective Date: 1/1/2023**  
**Schedule of Benefits**  
**Administered by Sentara Health Plans, Inc.**

This Schedule of Benefits is an overview of Your Covered Services and Your out of pocket cost sharing amounts including any Deductibles, Copayment and Coinsurance. There are three benefit columns. One column lists cost sharing amounts You will pay for VCUHS In-Network benefits from VCUHS Plan Providers and another for Optima Health PPO In-Network benefits from Optima Health PPO Plan Providers. The other column lists cost sharing amounts You will pay for Out-of-Network benefits from Non-Plan Providers. This Plan has tiered Copayment or Coinsurance amounts listed for In-Network benefits. For some services You will pay less out-of-pocket when You use Tier 1 Physicians, Hospitals or other Facilities or providers. You or Your means the Subscriber and each family member who is a Covered Person under the Plan. Details about Covered Services are in the section "What is Covered". Details about services and treatments that are not covered are in the section "What is Not Covered."

Some benefits require Pre-Authorization before You receive them. These services are marked with an \* in the Schedule of Benefits.

Some Covered Services may have visit limits. Once a visit limit is reached, no additional services are covered under the benefit. If a service is shown as covered under Out-of-Network benefits visit limits are combined with In-Network and Out-of-Network benefits unless otherwise stated.

Services or treatment You receive Out-of-Network or from Non-Plan Providers will be covered under Your Plan's Out-of-Network benefits unless:

1. The Covered Service is an Emergency Service;
2. During treatment at an In-Network hospital or other In-Network facility You receive Covered Services from a Non-Plan Provider; or
3. We have approved Your Covered Service in advance as an Authorized Out-of-Network Service.

If Your Plan has a Deductible that is the dollar amount that must be paid out of pocket by a Member for Covered Services each year before the Plan begins to pay for benefits. Your Plan may have separate Deductibles for In-Network and Out-of-Network benefits.

Copayments and Coinsurances listed in this Schedule of Benefits are amounts You pay directly to a Provider for a Covered Service. Copayments are shown as flat dollar amounts. Coinsurance is shown as a percentage of the Plan's Allowable Charge for Your Covered Service. You will pay a Copayment or a Coinsurance, but not both, for a Covered Service. For some benefits you may see the statement, "Cost sharing determined by the type and place of service." For these services Your cost sharing will be based on where you receive a service, for example in a physician office or inpatient setting, and/or the type of service. You may also have to pay for balance billing amounts that are more than the Plan's Allowable Charge for a Covered Service from Non-Plan Providers.

Your Plan's Maximum Out-of-Pocket Amount means the total dollar amount Members pay, or that are paid on their behalf, out-of-pocket for most Covered Services during a year. Deductibles, Copayments and Coinsurance for most Covered Services count toward the maximum amount. Your Plan may have separate maximum amounts for In-Network and Out-of-Network benefits.

## **Prescription Drugs**

This Schedule of Benefits describes Your Plan's outpatient prescription drug coverage. All drugs must be United States Food, Drug Administration (FDA) approved, and you must have a prescription. You will need to pay Your Copayment or Coinsurance when you fill your prescription at the pharmacy. If Your Plan has a Deductible, You must meet that amount before your coverage begins. Some drugs require Pre-Authorization by Your Physician, and some quantities may be limited. Details about Covered Services are in the section "What is Covered". Details about services and treatments that are not covered are in the section "What is Not Covered."

Prescriptions may be filled at a Plan pharmacy or at a non-participating pharmacy if the non-participating pharmacy or its intermediary has agreed in writing to accept as payment in full reimbursement from the Plan, including any Copayment or Coinsurance consistently imposed by the plan, at the same level as the Plan gives to participating pharmacies.

Prescription drugs are placed into Tiers by the Plan's Pharmacy and Therapeutics Committee. For a single Copayment or Coinsurance charge You may receive up to a consecutive 30-day supply of a covered drug at a retail pharmacy or Optima's Specialty Pharmacy. Specialty Drugs will be delivered to Your home address from Our specialty mail order drug pharmacy.

**Generic Drugs (Tier 1)** includes commonly prescribed Generic Drugs. Other drugs may be included in Tier 1 if the Plan recognizes they show documented long-term decreases in illness.

**Preferred Brand (Tier 2)** includes brand-name drugs.

**Non-Preferred Brand Drugs (Tier 3)** includes brand name drugs not included by the Plan on Tier 1 or Tier 2. These may include single source brand name drugs that do not have a Generic Product Level equivalent or a therapeutic equivalent. Drugs on this tier may be higher in cost than equivalent drugs, or drugs determined to be no more effective than equivalent drugs on lower tiers.

**Specialty Drugs (Tier 4)** includes those drugs classified by the Plan as Specialty Drugs. Tier 4 also includes compound prescription medications. Specialty Drugs have unique uses and are generally prescribed for people with complex or ongoing medical conditions. A compound prescription medication is used to meet the needs of a specific individual and must have at least one ingredient requiring a Physician's authorization by State or Federal Law. Specialty Drugs include the following:

1. Medications that treat certain patient populations including those with rare diseases;
2. Medications that require close medical and pharmacy management and monitoring;
3. Medications that require special handling and/or storage;
4. Medications derived from biotechnology and/or blood derived drugs or small molecules;
5. Medications that can be delivered via injection, infusion, inhalation, or oral administration; and
6. Medications subject to restricted distribution by the U.S. Food and Drug Administration.

Specialty Drugs are available through the Optima Health specialty mail order network and VCU Health System pharmacy depending on the medication. Specialty Drugs will be delivered to Your home address. If You have a question or need to find out if Your drug is considered a Specialty Drug please call Pharmacy Member Services at the number on Your Optima Health ID Card. You can also log onto [optimahealth.com](http://optimahealth.com) for a list of Specialty Drugs.
