

## Sentara Norfolk General Hospital PGY1 Residency

Program #38500

Check out our Instagram page!  SNGHRXResidency

### Program Information

The Postgraduate Year One (PGY1) pharmacy residency at Sentara Norfolk General Hospital in Norfolk, VA is an ASHP-accredited 12-month program in an integrated healthcare organization, designed to expand knowledge base and expertise in the provision of pharmaceutical care. Our residents will develop their practice skills during a variety of rotations at a highly specialized, nationally ranked, academic medical center with a Level 1 Trauma Center and a dedicated specialty Heart Hospital. They will also educate pharmacy students, other healthcare professionals, and patients on medication-related topics. Each resident will precept at least one pharmacy student on an APPE rotation. Residents will also be eligible for a Teaching Certificate through the Virginia Commonwealth University School of Pharmacy. Upon completion of the program, our residents will be well-prepared to serve as skilled practitioners in a variety of pharmaceutical care settings.

- 4 PGY-1 Positions
- Application Process: PhORCAS
- Application Deadline: January 2, 2024
- Start date: July 1, 2024

Clinical Pharmacy Specialist - Transplant  
AIINGEMI@sentara.com

## Rotations

The resident schedule is tailored to meet the special interests of the resident throughout the residency program.

- There will be seven core (required) rotations, 4 required longitudinal experiences, and four elective rotations during the twelve month residency program.
- Mandatory rotations may also be repeated as an elective rotation. If the resident has a special interest and there is not a rotation available for that specialty, the residency program director and coordinator should be informed.
- Residents will be able to choose one “project/wellness day” each rotation. The day must be mutually agreed upon with their preceptor and does not require use of vacation days.

### Core (Required) Rotations

- Orientation
- IMPaCT – Internal Medicine and Patient Care Transitions
- Critical Care
- Emergency Medicine
- Transplant or Cardiology
- Infectious Diseases
- Administration/Management
- Teaching and Learning Certificate (Longitudinal)
- Pharmacy Practice Experience/Staffing (Longitudinal)
- Medication Use Evaluation (Longitudinal)
- Research Project (Longitudinal)
- Chief Resident (One Quarter)

### Elective Rotations

- Antimicrobial Stewardship
- Medication Safety
- Ambulatory (Cardiac or Transplant)
- Pulmonary Hypertension
- Pharmacy Business
- Oncology
- Clinical Informatics
- Sterile Compounding

## Staffing

Residents will be in staffing for 2 weeks in December when not on a rotation and will work one of the major holidays. Staffing during this time frame may include any shift on the pharmacist schedule.

There is an every other weekend schedule for our PGY1 residents. During weekend coverage, residents rotate through shifts in the IV room, central pharmacy, and managing clinical consults.

## Conferences

Residents are required to attend the Vizient December meeting and ASHP Midyear Conference. Both of these are fully funded for travel arrangements, meals and conference fees. Residents will present their MUE at one of the above conferences and may present additional research if desired.

All residents must attend REPS (Research in Education and Practice Symposium) to present their final research project.
