Coverage Policy	Medical 160
Version	7

Member-specific benefits take precedence over medical policy and benefits may vary across plans. Refer to the individual's benefit plan for details*.

Purpose:

This policy addresses the medical necessity of Telemonitoring Services.

Description & Definitions:

Telemonitoring is the electronic communication of medical data as a means of providing care to an individual. This includes the use of computers, phones and other devices, with or without video or images.

Criteria:

Telemonitoring is considered medically necessary with **1 or more** of the following:

- Initial telemonitoring for **All** of the following:
 - Individual has **1 or more** of the following:
 - Heart failure
 - Uncontrolled diabetes
 - Chronic obstructive pulmonary disease (COPD)
 - Uncontrolled hypertension
 - Treatment plan with documented diagnosis is in place and includes **All** of the following:
 - Individual
 - Provider
 - Care manager
 - Individual has **1 or more** of the following:
 - Recurrent ER visits (greater than 1 in one year) related to the telemonitoring diagnosis
 - Recurrent hospital readmissions (greater than 1 in one year) for the same diagnosis
 - Individual is considered High Risk for readmission based on **1 or more** of the following:
 - Hospital EPIC Generated Hospital Risk Score (HRS of 5 or more) OR JVION Readmission Risk Status is HIGH (EPIC HOSPITALS)
 - Member is HIGH COST and/or High Utilization of Hospital Services (NON-EPIC HOSPITALS)

- Continued telemonitoring for **1 or more** of the following:
 - Individual shows improvement with treatment plan and condition but is not at goal
 - Individual continues to be uncontrolled with chronic condition and care team (Medical Director, physician and Case Manager) agree to update the care plan with new goals for a newly established time period.

Telemonitoring is considered **not medically necessary** for any use other than those indicated in clinical criteria.

Coding:

Medically necessary with criteria:

Coding	Description
S9110	Telemonitoring of patient in their home, including all necessary equipment; computer system, connections, and software; maintenance; patient education and support; per month
Revenue Code 789	Telemonitoring paid as a daily rate

Considered Not Medically Necessary:

Coding	Description
	None

U.S. Food and Drug Administration (FDA) - approved only products only.

Special Notes: *

This medical policy expresses Sentara Health Plan's determination of medical necessity of services, and they are based upon a review of currently available clinical information. Medical policies are not a substitute for clinical judgment or for any prior authorization requirements of the health plan. These policies are not an explanation of benefits.

Medical policies can be highly technical and complex and are provided here for informational purposes. These medical policies are intended for use by health care professionals. The medical policies do not constitute medical advice or medical care. Treating health care professionals are solely responsible for diagnosis, treatment and medical advice. Sentara Health Plan members should discuss the information in the medical policies with their treating health care professionals. Medical technology is constantly evolving and these medical policies are subject to change without notice, although Sentara Health Plan will notify providers as required in advance of changes that could have a negative impact on benefits.
