

APPENDICES

The joint Community Health Needs Assessment report was completed in collaboration with Sentara Obici Hospital, Sentara BelleHarbour Ambulatory Surgery Center and Sentara Obici Ambulatory Surgery Center, which have the identical service areas of the Cities of Suffolk and Franklin, as well as the Counties of the Isle of Wight, Southampton, Sussex, Surry and Gates County, NC.

Appendices represent data and sources used in the Community Health Needs report.

[Appendix A: Community Demographics](#)

Demographics include geography, population change, age, gender, ethnicity, language, education, employment, poverty, and insurance.

[Appendix B: Community Health Indicators](#)

Indicators include county health rankings (health outcomes and health factors), mortality, hospitalizations, risk factors, maternal and infant, cancer, behavioral health, violent crimes and gun violence.

[Appendix C: Community Health Needs Assessment Survey results](#)

This includes the community health needs assessment survey and response results.

[Appendix D: Community Focus Group results](#)

This included the focus group demographics and brief summary of results.

Data Limitations

- The data presented represents a snapshot of the population, economic and leading health, and wellness issues in the service area.
- It includes primary data gathered from community surveys and secondary data from health and other sources.
- This information can be used as a guide for helping communities identify leading health issues in the service area.
- Other health issues, data and resources may be available that were not listed here that communities may wish to consider when establishing health priorities.

APPENDIX C: COMMUNITY SURVEY

The survey was conducted with a broad-based group of community stakeholders and community members in Eastern Shore, Middle Peninsula, Peninsula, South Hampton Roads, Western Tidewater, and Northern East region of North Carolina. Surveys were available online and in English and Spanish by paper submission. The survey asked participants details about themselves, such as gender, race, diversity, equity, and inclusion (DEI), income, zip code and how COVID-19 impacted the health and access to care, as well as their opinion about important health concerns in the community for adults and for children:

- What is important to the health of adults and children?
- What should be improved in the community to keep children and families healthy?
- What should be added or improved in the community to help families be healthy?
- What are most important health concerns for adults and children?
- How to obtain resources for health concerns for adults and children?
- What makes it difficult to access healthcare services for adults and children?

The surveys were made available to the public from December 1, 2021 – February 28, 2022, in paper format and electronically using SurveyMonkey. A community stakeholder list of 1,892 unduplicated stakeholders was used to email the survey to request participation and included representatives from public health, education, social services, business, local government, and local civic organizations, among others. Feedback was received throughout the survey period on the age, gender, race/ethnicity, and language of survey respondents to assist in promoting the surveys to various community members.

Community Survey

Let Your Voice Be Heard

This brief survey is being conducted jointly by Bon Secours Hampton Roads, Children's Hospital of The King's Daughters, Riverside Health System, Sentara Healthcare and the Hampton and Peninsula Health Districts. The survey will take 5-10 minutes to complete, and the results will help us identify community health risks for us to prioritize. It will also help us find possible ways to affect change. We thank you for sharing your thoughts about your community.

1. Are you taking this survey as a community member or are you a professional working in community health, public health, medical, behavioral health services, social services or other community-based organization or business?

Brief Summary of Key Findings			
Topic: What are the most serious health problems in our community?			
Findings			
Cancer	Domestic Violence	Mental Health	Women's Health
Dementia	Heart Disease	Obesity	Violence
Diabetes	Hypertension		
Priority Focus			
Auxiliary Board	Diabetes, seeing increase in children with diabetes. Lack of food, access to healthy foods. Local market closed creating barriers for those without transportation. Mental Health lack of providers and facilities, lack of services for children.		
Patient Family Advisory Council	Mental health – identified by multiple participants. Diabetes, specifically referenced education, nutrition. Cancer, Dementia.		
Temple Beth El Community	Mental health – identified by multiple participants, noting that this crosses all age groups. Diabetes – echoed by multiple participants. Cancer - echoed by multiple participants. Hypertension - echoed by multiple participants. Dementia, Alzheimer's. Obesity, Heart disease. Violence for both adults and children – specifically references a survey completed with Belleville apartment residents which highlighted that domestic violence was a top concern among women surveyed. Women's health – prenatal care and care during menopause.

Findings			
Access to food and healthy food	Education	Housing	Transportation
Access to services	Financial concerns	Lack of options-transportation	Violence
Community Outreach options	Health behaviors	Social Support	Violence
Discussions			
Auxiliary Board	Health Behaviors, need education on what to do to be healthy. Transportation, lack of options. Not part of Hampton Roads Transit, only local bus which takes too much time for residents. Lack of taxi service, takes hours to get service.		
Patient Family Advisory Council	Education identified as top barrier, literacy and health literacy specifically referenced. Transportation, lack of options. Not part of Hampton Roads Transit, only local bus which takes too much time for residents. Lack of taxi service, takes hours to get service. Programs such as Uber and Lyft very limited in area, do not extend to rural areas. For patients, see extended delays with Medicaid cab pick-ups. Both inpatients and outpatients wait an extended time to be picked up after appointments, sometimes in pain. Health Behaviors, need education on what to do to be healthy, need education on healthy eating. Housing, social support.		
Temple Beth El Community	Social support identified as top social determinant – discussed the cultural perspective of having individuals who share one’s culture and language proving them with healthcare. Food, transportation , and health barriers were the next most frequently mentioned. Housing, education, and employment identified as well.		

Topic: Who has the health problems? What groups of individuals are most impacted by these problems?			
Findings			
African Americans	Disabled persons	Low-income populations	Under educated
Aging populations	Fixed income	Minorities	Uninsured
Caregivers	Homeless	Rural Communities	Youth
Discussions			
Auxiliary Board	Children, Elderly, Low-income.		
Patient Family Advisory Council	Elderly, minority groups, disabled.		
Temple Beth El Community	African-American communities. Discussed health disparities among black men – reluctance of black men to seek care as often as black women. Individuals in more rural areas (specifically transportation barriers). Individuals treated differently based on ability to pay – example provided where treatment plan changed based on the cost of coverage.		

Topic: What keeps people from being healthy? What are the barriers they face with taking care of their health and accessing care?			
Findings			
Access to doctor	Economic status	Lack of mental health providers	Mistrust
Adequate housing	Education	Lack of resources	No insurance
Affordable healthcare	Financial barriers	Lack of social support	Time
Culture	Food insecurity	Loneliness	Transportation
Discussions			
Auxiliary Board	Do not want to cook. Fast food options quicker and cheaper. Healthy food is too expensive and inaccessible for low-income. Transportation. Health Insurance. Copay is too high. Prescription costs. Stigma around government aided programs (Medicaid, Medicare.)		
Patient Family Advisory Council	Lack of education. Too much fast food. Youth particularly need education on what healthy eating looks like. Access to healthy food is a challenge for some populations. Transportation, reliance on Medicaid cabs and bus system. High cost of medical transport for individuals that require additional care. Lack of health insurance.		
Temple Beth El Community	Lack of trust in healthcare system – cultural barriers with trust in providers/medical community, understanding preventative care. Lack of education, individuals not always aware of what preventative or routine care consists of (i.e. physical yearly, dentist every 6 months). Contribution of education to other socio economic factors. Knowing you need care, having awareness. Transportation. Lack of health insurance, other financial barriers.		

APPENDICES

Topic: What is being done in our community to improve health and reduce barriers? What resources exist in the community?			
Findings			
Acute care	Flu clinics	Health Fairs	Outreach organizations
Church programs	Food banks and food pantries	Immunization clinics	Salvation Army
COVID-19 testing and vaccines	Free clinics	Meals on Wheels	Western Tidewater Free Clinic
Dentistry programs			
Discussions			
Auxiliary Board	Churches, feed the homeless. Food pantries. Free Health Clinic. Meals on Wheels. Salvation Army.		
Patient Family Advisory Council	Food bank. Western Tidewater Free Clinic. Local dentist has provided free dental services to community in the past. Building additional doctor offices in the community and seeing different specialties providing services; also referenced recently approved hospital for Smithfield (Riverside). PFAC team shared that the education/information they receive as part of this group is then shared forward in the community.		
Temple Beth El Community	Temple Beth El has medical team which assists members, community, often partners with other organizations (ex. COVID testing, COVID vaccination, partnership with restaurants during COVID to provide meals to community, assist community members with virtual appointments). Food bank. Sentara has been a great partner to the community. "Remote Area Medical Events" which travels through the US. Coming to Chesapeake June 25th and 26th to provide dentist and ophthalmology services.		

Topic: How has the COVID-19 pandemic worsened the health issues in our community?			
Findings			
Access to doctor	Isolation	Reduced physical activity	Virtual Appointments
Delay in screenings	Lack of resources	Scheduling wait lists	Weight Gain
Depression	Misinformation	Substance Use, alcohol use	Wait times
Food insecurity	Mistrust in healthcare		
Discussions			
Auxiliary Board	Weight gain, leading to obesity. Depression, Mental Health. Isolation. Lack of procedures and screenings. Can't visit people like we used to, in hospital, social engagements.		
Patient Family Advisory Council	Individuals have delayed or cancelled needed preventative care, screenings. Virtual appointments are very challenging and are not always a good substitute to in person appointments. Reduced physical activity due to staying at home. Mental health challenges related to social isolation. Lack of trust in the healthcare system. Different perceptions on the pandemic. Medical dis-information – difficult to weed out the fact.		
Temple Beth El Community	Mistrust in the healthcare system has been worsened by the pandemic; increase in anti-science rhetoric; this has amplified the fear/ dis-trust of healthcare that previously existed. Delays in care for individuals who were hesitant to go into the office. Delays in screenings, specifically mammography, colonoscopy. Deterioration in mental health issues across age groups. Mixed feedback on virtual visits – don't replace the face to face visit with the doctor, difficult to build relationships, technology barriers. Impacts of Long COVID and association of COVID with other illnesses such as diabetes.

Findings			
Affordable Healthcare	Community Events	Health Fairs	Outreach Programs
Better Access	Community Navigators	Mobile Clinic	Screening Events
Built Environment	Health Education	Neighborhood Events	Wellness Education
Discussions			
Auxiliary Board	Mobile clinic-reach community where they live. Bring back health services which occurred in previous years. Screenings at churches. Men specific screening events. Senior groups-education and screening, Senior Living at SOH.		
Patient Family Advisory Council	Improve transportation resources. Re-launch education and screening events that were held pre-pandemic. Bone density screenings. Prostate screening events. Mammography screening events. Educational events on health eating – used to have classes to teach individuals how to read nutrition labels. Share the health concerns we identify more broadly with the community to gain additional support for change. Ex. Share transportation needs with Rotary clubs, government organizations to help		
Temple Beth El Community	Community Navigators – members in the community that help people navigate healthcare and assist with resources outside of the hospital. Referenced that this is done well in the hospitals, but not on the outpatient side with the general community. Mobile medical units – take the care to people where they are. Healthy design in communities – sidewalks, bike paths. Improve availability of grocery stores and the cost of food.
