Prescription Recall or Safety Notice

Date of Notice: Aug. 7, 2026

Product: Various Baxter products: Myxredlin, Famotidine, Cardene IV, Nexterone, clindamycin, dexmedetomidine, vasopressin, vancomycin, pantoprazole, daptomycin

Manufacturer: Baxter Healthcare

NDC Number(s): See weblink for full list of recalled products and NDC number.

Lot Number(s) and Expiration Date(s): See weblink for full list of recalled lots and expiration dates.

Reason: Due to the potential of contamination with a beta-lactam drug product.

Manufacturer Contact Information: Call Baxter Healthcare at 800.422.9837

Suggested Action: Patients with recalled product should not use it and contact the pharmacy that dispensed it for replacement.

For More Information: https://www.pharmacy.ca.gov/about/recall_alerts/080726_baxter.pdf

Express Scripts' Response:

- Communications were distributed for clients that are enrolled in Express Scripts' Emerging Therapeutics Intervention Program.
- A summary of the manufacturer's notice was sent to enrolled members who filled a prescription for a drug with a recalled NDC number at a retail pharmacy within the past 120 days.
- The recall information and prescription profiles of relevant possibly affected members went to each provider who wrote a prescription that was filled at a retail pharmacy within the past 120 days and that has a recalled NDC number.
