Description & Definitions:

Orthotics and braces are used to support joints and/or prevent movement following an injury, or surgery.

Spinal orthoses can protect the spine to prevent further injury or can correct the position of the spine. A spinal orthosis may be prefabricated, custom-fitted (a prefabricated brace modified to fit a person), or custom-fabricated (individually constructed to fit a specific person). off-the-shelf (OTS) is a prefabricated orthosis that requires minimal adjustment on final delivery.

- Custom-fit is a prefabricated orthosis that requires a moderate to maximum adjustment on final delivery.
- A custom-fabricated orthosis is made and fitted to a specific individual.

Benik Shorts are custom, compression shorts to provide additional support to back, stomach, hips and thighs for additional support and alignment during exercise.

Suit Therapy is an orthotic, lycra apparel that provides stability for tone, posture and controlled stability.

Criteria:

Orthotic or brace needed, as indicated by **1 or more** of the following:

- Custom Brace needed for **1 or more** of the following:
 - Abnormal limb contour interferes with use of prefabricated orthosis
 - Child or person of short stature, when pediatric prefabricated orthosis is not sufficient
 - Contracture or deformity interferes with fitting of prefabricated orthosis
 - Minimal muscle mass limits suspension of prefabricated orthosis.
 - Person of tall stature, when extensions for prefabricated orthosis are not sufficient
 - Tried and failed use of prefabricated orthosis
- Orthotic or Brace needed for **1 or more** of the following:
 - Post-surgical
 - prescribed to support, align, prevent or correct a deformity with **ALL** of the following:

Considered Not Medically Necessary:

Coding	Description
	None

U.S. Food and Drug Administration (FDA) - approved only products only.

The preceding codes are included above for informational purposes only and may not be all inclusive. Additionally, inclusion or exclusion of a treatment, procedure, or device code(s) does not constitute or imply member coverage or provider reimbursement. Please refer to the member's contract benefits in effect at the time of service to determine coverage or non-coverage of these services as it applies to an individual member.

Special Notes: *

- Coverage: See the appropriate benefit document for specific coverage determination. Member specific benefits take precedence over medical policy.
- Application to Products: Policy is applicable to Sentara Health Plan Commercial products.
- Authorization Requirements: Pre-certification by the Plan is required.
- Special Notes:
 - Medical policies can be highly technical and complex and are provided here for informational purposes. These medical policies are intended for use by health care professionals. The medical policies do not constitute medical advice or medical care. Treating health care professionals are solely responsible for diagnosis, treatment, and medical advice. Sentara Health Plan members should discuss the information in the medical policies with their treating health care professionals. Medical technology is constantly evolving, and these medical policies are subject to change without notice, although Sentara Health Plan will notify providers as required in advance of changes that could have a negative impact on benefits.
 - Services mean both medical and behavioral health (mental health) services and supplies unless We specifically tell You otherwise. We do not cover any services that are not listed in the Covered Services section unless required to be covered under state or federal laws and regulations. We do not cover any services that are not Medically Necessary. We sometimes give examples of specific services that are not covered but that does not mean that other similar services are covered. Some services are covered only if We authorize them. When We say You or Your We mean You and any of Your family members covered under the Plan. Call Member Services if You have questions.
 - MUST SEE MEMBER BENEFIT FOR DETERMINATION. We only cover DME that is Medically Necessary and prescribed by an appropriate Provider. We also cover colostomy, ileostomy, and tracheostomy supplies, and suction and urinary catheters. We do not cover DME used primarily for the comfort and wellbeing of a Member. We will not cover DME if We deem it useful, but not absolutely necessary for Your care. We will not cover DME if there are similar items available at a lower cost that will provide essentially the same results as the more expensive items.
