Benefit category	Sentara Community Complete (HMO D-SNP)
Yearly deductible stage	You pay your deductible when you fill your first prescription of the year. Because you are receiving "Extra Help" from Medicare, you may have a reduction in your plan deductible, and may pay between \$0 to \$99.
Initial coverage limit	<p>After you pay your yearly deductible, you (or others on your behalf, including "Extra Help" from Medicare) pay the following until the amount of your year-to-date "out-of-pocket costs" reaches \$8,000. When this happens, you will move to your catastrophic coverage. The year-to-date "out-of-pocket costs" are the total drug costs paid by you, "Extra Help" from Medicare, and our Part D plan.</p> <p>You may get your drugs at network retail pharmacies, long-term care pharmacies, or our mail order pharmacy. With standard retail cost-sharing (in-network), you will pay between \$0 to \$11.20, or 15% coinsurance for your Part D prescription drugs based on your "Extra Help" from Medicare copay level.</p>
Coverage gap	<p>Most Medicare drug plans have a coverage gap, also called the "donut hole."</p> <p>Because you are receiving "Extra Help" from Medicare, this payment stage does not apply to you.</p>
Catastrophic coverage	After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy, long-term care pharmacy, or through mail order pharmacy) reaches \$8,000, your plan will pay the full cost for the remainder of the year.

Important Message About What You Pay for Insulin – You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible (if your plan has a deductible).
