What we offer

- The chance to enter a challenging career in a high-technology field.
- The opportunity for a satisfying career contributing to the care of others.
- The potential for future growth and specialization in medical imaging such as CT, ultrasound, nuclear medicine, angiography, mammography, radiation therapy and MRI.
- A stimulating environment for professional development.

Sponsoring institution

Our school is operated and sponsored by Sentara RMH Medical Center in Harrisonburg, VA, a member of the Sentara Health system.

More than 50 years of experience

Since 1966, the Sentara RMH School of Radiologic Technology has been accredited by the Joint Review Committee on Education in Radiologic Technology (www.JRCERT.org) and is certified to operate in the Commonwealth of Virginia by the State Council of Higher Education (www.SCHEV.edu).

Mission statement

The mission of the Sentara RMH School of Radiologic Technology is to prepare students with the highest educational experiences to become successful entry level Radiologic Technologists demonstrating outstanding levels of professionalism, academic, and clinical competence in serving their patients, community, and the profession.

Program goals & outcomes

Goal 1: Students will be clinically competent

- Students will position patients properly.
- Students will practice radiation protection.
- Students will select appropriate technical factors.

Goal 2: Students will show professionalism

- Students will exhibit professional behaviors.
- Students will determine importance of professional development.

Goal 3: Students will communicate effectively

- Students will use effective oral communication skills.
- Students will use written communication skills.

Goal 4: Students will utilize critical thinking skills

- Students will manipulate technical factors for non-routine examinations.
- Students will be able to adjust to non-routine situations.

The Radiologic technologist

The role of the radiologic technologist can be a gratifying one because they perform a humanitarian service. Radiologic technologists must be willing to work with sick and disabled persons, be sympathetic and perceptive of patient needs, perform accurate and thorough work. The technologist should be an assertive, ambitious and adaptable individual.

Our program

Our school offers a 21-month program and awards certificates upon satisfactory completion. The student is responsible for tuition and the cost of textbooks for both college classes and the School of Radiologic Technology.

Clinical facilities

Sentara RMH Imaging Services offers student experience and exposure to all aspects of radiography and medical imaging. Students have the opportunity to observe all modalities of medical imaging and radiation therapy. Students will gain clinical experience at Sentara RMH Medical Center and Augusta Health facilities.

Our program personnel

Russell Crank, MS, RT(R), Program Director
Carla Williams, BS, RT(R)(M), Clinical Coordinator
Amber Rinker, BS, RT(R), Clinical Instructor
Elizabeth Estep, BS, RT(R), Clinical Instructor
Val Liberace, MD, Medical Advisor

Educational requirements

Prerequisite for admission to the Sentara RMH School of Radiologic Technology is an Associate's or more advanced degree in any field. A degree is not required for an interview, but if accepted, must be completed before entering the program. The student must have a cumulative GPA of 2.5 or higher.

The applicant must have completed or be enrolled in the following prerequisites (or equivalent) before applying:

- Anatomy & Physiology I (BIO 141) within the last 5 years
- Two of the following prerequisites:
 - English Composition (ENG 111 or higher)
 - College level math (MTH 154 or higher)
 - Medical Terminology (HLT 143)
 - Anatomy & Physiology II (BIO 142) within the last 5 years
- Interactions Course (One of the following)
 - Ethics (PHI 220 or higher)
 - Psychology (PSY 200 or higher)
 - Sociology (SOC 200 or higher)

The remaining courses in this prerequisite list must be completed prior to the start of the program. All prerequisite courses must be completed with a grade of "C" or higher.

Application deadline

The deadline for applying to the program is December 1.

A personal interview with program personnel is required and will be scheduled after December 1.
