CHOOSE MYPLATE FOR

# Healthier Eating

#### Follow these tips to help you...

#### **Build a healthy plate**

- Make half your plate fruits and vegetables.
  Eat red, orange, and dark-green vegetables.
- Switch to skim or 1% milk, they have the same amount of calcium as whole milk with fewer calories and fat.
- Make at least half your grains whole.
  Choose 100% whole grain cereals, breads, and pastas.
- Vary your protein food choices. Choose seafood twice a week and eat beans for protein and fiber.

### Cut back on foods high in solid fats, added sugars, and salt

- Choose foods and drinks with little or no added sugars.
- Reduce daily sodium intake to less than 2,300 milligrams (mg).
- Eat fewer foods that are high in solid fats.
  Pizza, cheese, hot dogs, and cakes are higher in saturated fat. Choose lean meats and use oils for cooking.

#### Eat the right amount of calories for you

- Enjoy your food, but eat less.
- Cook more often at home, where you are in control of what's in your food.
- When eating out, choose lower calorie menu options.
- Write down what you eat to keep track of how much you eat.

#### Be physically active your own way

Pick activities that you like and start by doing what you can, at least 10 minutes at a time. Every bit adds up, and the health benefits increase as you spend more time being active.
