Provider access

Making quality care easier to access

As part of a not-for-profit, integrated delivery system, Sentara Health Plans has a unique approach to provider contracting.

Key clinically integrated networks within the Sentara Health Plans provider network offer members the benefit of new models of care from a custom care team, to deliver the right care, in the right place, at the right time.

View the complete list of our provider directories at sentarahealthplans.com/find-doctors-drugs-and-facilities.

⁴Sentara network database, 2025. Excludes Veterans Affairs hospitals.

National provider access through PHCS⁵

In addition to the Sentara Health Plans proprietary network, members who choose our POS or Plus PPO plans have access to PHCS, the nation's largest independent primary PPO network.⁶ This provides members with in-network access to physicians and hospitals all over the country for services received outside the primary Sentara Health Plans service area—regardless of where members live or work.

Out-of-Area (OOA) Dependent Program⁷

Dependent children living outside of the service area have access to in-network benefits on a Vantage HMO plan—even when they're away at college. They can receive covered services from PHCS providers at the in-network benefit level.

Transformative care through Value-Based Care Program

Sentara Health Plans offers our clients the opportunity to engage with our Value-Based Care Program. We provide a successful model that involves the health plan and provider networks working in concert to offer value-added medical services, reduce clinical care gaps, and improve access. This program enhances the overall member experience and empowers providers to make positive changes to their approach to care.

Convenient vision services through VSP Vision Care (VSP)

Annual examinations are a covered benefit and value-added discounts for corrective lenses and materials are available from VSP's expansive provider network. Members may access these services through independent optometrists as well as national, regional, and online retail providers.

⁵Depending on the plan, members may see this referenced as PHCS/MultiPlan on their member ID card.

⁶MultiPlan press release, July 16, 2019. ⁷The member will be required to complete an annual certification form prior to being eligible for the program. ⁸This is not a covered benefit but a value-added service.

Around-the-world assistance 24/7

Members have access to Emergency Travel Assistance for medical and travel emergencies at no additional cost.⁸ The service covers members whenever they travel 100 miles or more away from their permanent residence, or are in another country.

Value for employers and members: consumer-driven health plans

Helping employers and members get more value

Sentara Health Plans offers a suite of tools and services to empower members to be better health consumers and enable employers to recognize cost savings.

Cost-efficient benefits for employers and their employees

Sentara Health Plans employers and members can get more for their healthcare dollars with consumer-driven health plans (CDHP).

Our CDHPs ease the cost burden for employers while providing competitive benefit plans to members. For example, some preventive drugs are available before the deductible for CDHPs that include a Health Savings Account (HSA). Partnering with HealthEquity® account services enables us to offer an integrated solution that simplifies administration for both employers and members.

Eligibility and claims data flow directly from Sentara Health Plans to HealthEquity. Members have easy, permanent access to claims information through the HealthEquity portal, eliminating paperwork requirements and facilitating the payment process.

CDHP implementation process

As part of the implementation process coordinated by your representative, employers interested in participating in Health Reimbursement Arrangements or Health Savings Accounts should submit the New Business Information Form: sales.healthequity.com/onboarding.

Afterward, the following will take place:

1. A HealthEquity representative will contact the employer within five-seven business days to walk through the plan setup and application.
2. Employers will complete group enrollment with Sentara Health Plans, who will send the following group information to HealthEquity:
 - Group setup files
 - Daily eligibility files
 - Weekly claims files
3. HealthEquity will create the employer portal.
4. HealthEquity will open employee accounts and send welcome materials to members.

Preventive services

Patient Identification Manager Reminder System

The Patient Identification Manager Reminder System informs members of recommended preventive healthcare screenings that help fight communicable diseases and diagnose cancer in the earliest, most treatable stages. Our health improvement programs give members valuable information and encouragement to reduce health risks. Employees who improve their health can reduce their healthcare needs, reduce absenteeism, and reduce healthcare costs. System initiatives include:

Mammography reminders

Women who have missed a mammogram per the recommendation of their provider receive preventive care reminders. We also send a communication during their birthday month with information about the recommended mammography schedule, and the importance of mammography and cervical cancer screening.

Cervical cancer screening reminders

Women who have missed a cervical cancer screening per the recommendation of their provider receive a communication during their birthday month that informs them of Pap test recommendations, and the importance of cervical cancer and mammography screening.

Healthy pregnancy mailings

Members receive periodic communications during their pregnancy. They include pregnancy and parenting resources as well as helpful tips related to nutrition, stress management, pre-term labor, and postpartum visits. Members are connected with our Partners in Pregnancy team who are available throughout the gestational period for information and assistance.

Physician notifications

Physicians receive monthly lists of their patients (our members) who were reminded through the Patient Identification Manager Reminder System and have still not completed their preventive screenings.

Birthday emails

Plan members whom we have an email on file for will receive a birthday email during their birthday month. This message includes key reminders for preventive health guidelines to achieve their personal best health.

In keeping with our mission to **improve health every day**, Sentara Health Plans offers over 100 preventive services and medications that are covered at no cost to the member when administered by an in-network plan physician or pharmacy. An office visit copayment may be charged to health plan members for some services. To review a list of services that are covered, please visit sentarahealthplans.com/members/manage-plans/covered-preventive-services. Some preventive drugs are available before the deductible for HSA plans.

Holistic health management

Sentara Health Plans' approach is member-centric rather than disease-centric to fit each member's specific needs. Our specialized services support members according to their preferences and their goals with guidance from clinical experts who are there with them throughout their health journey.

BusinessEDGE

A cost-efficient funding alternative

BusinessEDGE is a level-funded option for employers with a history of low to moderate claims activity. BusinessEDGE helps employers reduce health benefit costs and invest the savings back into their organization. This option is available to groups with 5-250 total enrolled employees.

BusinessEDGE provides predictable health benefit costs, such as:

- Twelve (12) months of fixed premium payments based on predicted claims history
- Stop-loss protection against catastrophic claims

Additional savings include:

- A potential refund if claims are lower than predicted
- Insurance premium tax savings on claim expenditures

What are the benefits of BusinessEDGE?

A simple integrated solution

Sentara Health Plans offers an integrated solution with claims administration and provision of a stop-loss policy. We help make transactions faster, more efficient, more secure, and help employers avoid the hassle of coordinating with multiple companies.

Refund opportunities

If a group is still insured with Sentara Health Plans after the 24-month claim paid period and actual claims history is lower than predicted, the group is eligible to collect a refund. The refund percentage of the unused claims fund is determined at the time the group is initially set up.

Stop-loss protection

If eligible medical claims paid by your level-funded plan are higher than the amount funded for claims, you are protected with stop-loss insurance. So if an individual or the entire group has high claims, you are covered.

Cost savings with health reform exemptions

Sentara Health Plans BusinessEDGE plans are exempt from many of the ACA requirements, which means businesses can avoid many of the associated cost burdens. The key requirements these plans are spared from include covering all essential health benefits and falling under the rating standards.

Elimination of most premium tax

There is no premium tax on claim expenditures. Premium tax is applied only to the stop-loss premium, which is usually less than a fully insured PPO premium.

Monthly cost reporting

Sentara Health Plans will provide a monthly reporting of costs. This allows for more informed decision making when considering benefit changes, and provides clear direction for what to include in employee messages about health, wellness, and any upcoming health plan changes.

Is a BusinessEDGE plan right for my company?

Benefit	BusinessEDGE	Fully insured plans
Reduced premium tax (compared to PPO)	✓	
Exempt from ACA ratings standards	✓	
Exempt from essential health benefits	✓	
Savings of annual health insurance industry fee	✓	
Potential for refund	✓	
Predictable fixed monthly payments	✓	✓
Protection from high claims	✓	✓
Simple integrated solution	✓	✓

How does the BusinessEDGE plan work?

- Employer pays a fixed monthly payment per employee enrolled status that includes monthly estimated claims, stop-loss premium, and an administrative fee.
- Sentara Health Plans processes claims, issues ID cards, provides customer service, and sets up the health plan provider network.
- Stop-loss insurance limits the risk for excessive medical claims.
- At the end of the 12-month contract, and an additional 12-month run-out period, the claims fund is evaluated against actual paid claims and a refund may be provided.
