

Find In-Network Providers Near You

Let's Get Started!

1. Visit davisvision.com/locator.
2. Enter location information into the search fields.
3. By default, the tool searches through all in-network providers, but you can view locations that are specific to your employer's network by logging into your existing account or creating a new one.
4. Click on the "Search Now" button to see the results in a list and on a map.

Use Our Free App

1. Search for the "Davis Vision" app in the Android or iOS store and install it.
2. Login to your existing account or create a new one.
3. From the main screen, tap on "Providers."
4. Enter location information into the search fields.
5. Tap the magnifying glass to see the results in a list and on a map.

Know Before You Go

You can find providers who carry the Exclusive Collection of frames and contact lenses by looking for the  icon within the results. Also, have your member ID number handy when scheduling your appointment.
