

2024 Equity Preventive Drug List

Preventive Class

(Effective: January 1, 2024)

Preventive drugs are used to help you avoid developing a health condition. If your doctor prescribes a preventive prescription drug on this list, it will be covered whether you have met your deductible. Copayments may vary based on your benefit.

If a generic equivalent drug is available, the brand-name drug is excluded from this benefit.

You or your doctor may be asked to prove that the drug is being used for prevention. This list is not inclusive of all conditions that can be prevented or all preventive drugs available by prescription. For HSA plans, please note that this list includes medications that may be considered preventive under current U.S. Department of Treasury IRS requirements for HSA-qualified high deductible health plans. However, the IRS has not released a complete list of preventive medications eligible to be covered before a health plan deductible is met. You should always check with a tax consultant if you have questions about managing your HSA account.

All Sentara Health Plans Formulary rules, including prior authorization, step-edits or quantity limits will apply.

Anit-angials

RANOLAZINE

Antiasthmatic and Bronchodilator Agents

ADVAIR DISKUS

ADVAIR HFA

ALBUTEROL SULFATE

ALVESCO

ANORO ELLIPTA
